IMMEDIATE CEASE-AND-DESIST NOTICE

**CEASE AND DESIST TO END ALL COVID-19 PANDEMIC MEASURES AND ALL mRNA
MANDATES AND PCR TESTING**

The Coronavirus SARS-CoV-2 COVID-19 Fraud

November 14th, 2021

By: FAX, EMAIL and BAILIFF

To: UNITED KINGDOM

UK Parliament, Prime Minister Boris Johnson and Parliamentarians
Privy Council of the United Kingdom
Chancellor of the Exchequer
Attorney General United Kingdom
HM Treasury
UK Minister of Foreign Affairs
Supreme Court of the United Kingdom

And to: CANADA

Federal Government of Canada, Prime Minister Justin Trudeau and Parliamentarians
Queen's Privy Council
Senators
Supreme Court of Canada
Solicitor General of Canada
Auditor General of Canada
Treasury Board of Canada
Provincial Premiers
Provincial Lieutenant Governors
Provincial Solicitor Generals
Provincial Auditor Generals
Municipal Mayors and Councillors
Canadian Employers and Employee Unions

**RE: Limits on Federal, Provincial and Municipal Governments' Emergency Powers during
COVID-19**

**YOU ARE THREATENING THE LIVES OF CANADIANS, INDIGENOUS PEOPLES AND
DESTROYING OUR ECONOMY AND OUR COUNTRY!**

CANADA has not declared the Federal Emergencies Act, nor did Canada properly monitor the responsibility of the provinces who declared the emergencies to follow the requirements of the Non-Derogation of Human Rights International Law to which Canada and the UK have agreed to, which means even during COVID-19 or WAR.

Therefore, Canada and the provinces MUST CEASE and DESIST all illegal activities against our Constitutional and International Human Rights given that there has never been a pandemic officially declared as SARS -CoV-2. COVID-19

The Canadian isolation of the SARS -CoV-2 Coronavirus has consistently failed to qualify as a high consequence infectious disease (HCID) since March 19, 2020, not only in Canada but worldwide.

Scientific Data from Canadian Occupational Health and Safety:

<https://www.ccohs.ca/oshanswers/diseases/coronavirus.html>

What is a coronavirus?

Coronaviruses (CoV) are a large family of viruses that are common and are typically associated with mild illnesses, similar to the common cold.

A novel coronavirus (nCoV) is a new strain that has not been previously identified in humans. The severe diseases have included:

- *Middle East Respiratory Syndrome (MERS-CoV) (first reported in 2012, all cases have been linked to countries in or near the Arabian Peninsula)*
- [*Severe Acute Respiratory Syndrome \(SARS-CoV\)*](#)

In late 2019, a coronavirus was identified in China (Wuhan City) and was initially known as 2019 Novel Coronavirus (2019-nCoV). An illness was reported on December 31st, 2019, and confirmation of the coronavirus identification occurred on January 7th, 2020. Formally, the disease is now known as coronavirus disease or COVID-19. The virus causing the disease is known as "severe acute respiratory syndrome coronavirus 2" (SARS-CoV-2).

FACTS:

The Canadian Federal and Provincial Governments including Health Canada and the Provincial Public Health knew or had to have known about the MILD infectivity rate for most Canadians other than the elderly or those with severe comorbidities as early as March 2020.

Yet little was done to protect the most vulnerable. Instead, the whole population of Canada was put under extreme health measures while leaving the most at risk the most vulnerable, as the reports from Stats Canada and CAF Operational Observation in Ontario confirm.

After all, a Canadian Research Team, was reported to have found the information on how the virus affected both healthy and unhealthy cells, as of March 2020. The data and research the media reported on was the "Isolation, Sequence, Infectivity, and Replication Kinetics of Severe Acute Respiratory Syndrome Coronavirus 2".

Isolation, Sequence, Infectivity, and Replication Kinetics of Severe Acute Respiratory Syndrome Coronavirus 2

In conclusion, we report that although a human lung cell line supported replication of SARS-CoV-2, the virus did not propagate in any of the tested immune cell lines or primary human immune cells. Although we did not observe a productive infection in CD4+ primary T lymphocytes, we observed virus-like particles in these cells by electron microscopy. Thus, SARS-CoV-2 can enter CD4+ primary T lymphocytes but is unable to replicate efficiently. **Our data shed light on a wider range of human cells that may or may not be permissive for SARS-CoV-2 replication, and our study strongly suggests that the human immune cells tested do not support a productive infection with SARS-CoV-2.**

Acknowledgments

We acknowledge Lindsey Fiddes' help with electron microscopy. SARS-CoV-2 Liverpool protocol genome amplification primer sequences were generously shared by Public Health England.

This study was supported by a Canadian Institutes of Health Research (CIHR) COVID-19 rapid response grant to principal applicant K.M. and co-applicants A.B., A.G.M., M.S.M., and S.M. A.B. was funded by the Natural Sciences and Engineering Research Council of Canada. J.A.N. was supported by funds from the Comprehensive Antibiotic Resistance Database. B.P.A. and A.R.R. were supported by CIHR funding (PJT-156214 to A.G.M.). Computer resources were supplied by the McMaster Service Lab and Repository computing cluster, funded in part by grants to A.G.M. from the Canadian Foundation for Innovation. Additional cloud computing needs were funded by the Comprehensive Antibiotic Resistance Database. J.A.H. is supported by the Canada Research Chairs Program and an Ontario Early Career Researcher Award. M.S.M. is supported by a CIHR COVID-19 rapid response grant, a CIHR New Investigator Award, and an Ontario Early Researcher Award.

Political Health Care by Health Scare Pandemic for implementation of mRNA Gene Therapy Injections and mass DNA collection for biobanks without informed consent.

The only pandemic that exists is the one you have deliberately caused by implementing a false pandemic to enforce compliance with draconian measures, destroying our economy, and the enforcement of the experimental mRNA injections through fear, coercion, and illegally imposing new employment conditions, travel regulations and a passport giving access to private and confidential information to non-bonded individuals, increasing the risk of fraud and identity theft.

You have yet to fully disclose the complete ingredients lists and possible long-term effects of the injections, including non-disclosure of the binding contracts with manufacturers of vaccines,

PPEs and third parties that you have illegally indentured Canadians to through false pretenses. Canadians have died at your hands through deliberate criminal malfeasance.

You, the Center for Disease Control (CDC) and the World Health Organisation (WHO) have gone so far as to change definitions and the laws to protect yourselves; but the lowest and atrocious thing you have done other than cold-blooded murder, is to reduce the age of consent to the age of 12 claiming that these children are old enough to make life-altering medical decisions.

Adding insult to injury, you are also enforcing the children 4 months to 11 yrs. to also receive the experimental mRNA. These actions are **UNDENIABLY UNCONSCIONABLE** and **UNETHICAL**.

The Government of Canada and the provinces cannot contravene the Labour Codes nor claim that adding mandatory vaccinations as being part of the Health and Safety Acts, as Public Health laws do not form part of these laws. These actions by both the federal and provincial governments are illegal.

Limits of Mandates

There are few downsides that come with using mandates. Namely, they don't carry the same power as a law. They are not law. There are a few conditions in which a mandate can be deemed invalid. These will be when they fall outside the government's agency under the legislation.

Although public health can make decisions about a pandemic, Emergency Measures must be proven and justified. However, at no level of Canada's Federal Government or the provinces or public health, has there ever been viable and undeniable proof that the SARS CoV-2, COVID-19 Disease is deadly enough to justify Emergency Measures. Instead, a pandemic to invoke Emergency Measures was created out of "fear of dying due to not being able to access timely medical care" within our provincial health care systems.

To be enforceable, a provincial emergency measures or mandates can not overrule our Canadian Constitution when a national emergency has not been declared legally, federally.

A declaration through a media press conference does not constitute a legally binding declaration. Nor can they overrule the international laws Canada has signed onto, such as our international political and civil rights and non-derogation of human rights laws. This alone makes mandates illegal. Only certain rights can be derogated from during an emergency but not all.

Many of our rights are protected and were to be followed and honored during COVID-19 or even war. All laws and mandates need to follow the rules established in the Canadian Constitution, the law of our land which includes International Human rights laws.

Freedom of Conscience

Forcing people to do things to their bodies against their will without enough information

available or knowing that there could be a chance for harm with the mRNA injections could send someone into distress which will be more harmful in the long run.

Brian Bird* (2020) 98 S.C.L.R.

(2d) 111 - 143 Part II Freedom of Conscience and Religion Supreme Court Law Review A person's career "is an essential component of his or her sense of identity, self-worth and emotional well-being." Indeed, a person mired in a professional crisis of conscience has two unenviable choices: violate her conscience and injure her integrity and identity (and potentially experience harm) or retreat from the professional situation that threatens her conscience. While retreat may seem viable in the abstract, the value of being able to pursue one's desired profession should not be overlooked. A person's career plays a significant role in the make-up of her identity.

Chief Justice Dickson of the Supreme Court of Canada described work in Reference Re Public Service Employee Relations Act (Alberta) as "one of the most fundamental aspects in a person's life, providing the individual with a means of financial support and, as importantly, a contributory role in society." A person's career "is an essential component of his or her sense of identity, self-worth and emotional well-being." Conscience is "an essential part of our understanding of what kind of person we are, and this is taken to be a reason for warranting protection of conscience and conscientious objection" in various contexts.

Canada Labour Code R.S.C. 1985, c. L-2

Your claim of immunity set out under:

Limitation of liability 12.051: The Chairperson, Vice-Chairpersons, other members and external adjudicators are not personally liable, either civilly or criminally, for anything done or omitted to be done by them in good faith in the exercise or purported exercise of any power, or in the performance or purported performance of any duty or function, conferred on them under this Act. S.C. 2017, c. 20, s. 324(1); S.C. 2017, c. 20, s. 324(2).

NOTE: The claim of immunity from liability under the civil or Criminal codes are of no force or effect when your decisions, or actions directly or indirectly, cause death or injury, or even under malfeasance, and misfeasance. See: **Ontario (Attorney General) v. Clark, 2021 SCC 18**

[22] A successful misfeasance claim requires the plaintiff to establish that the public official engaged in deliberate and unlawful conduct in his or her capacity as a public official, and that the official was aware that the conduct was unlawful and likely to harm the plaintiff (Odhavji Estate v. Woodhouse, [2003] 3 S.C.R. 263, at para. 23, per Iacobucci J.).

[23] The unlawful conduct anchoring a misfeasance claim typically falls into one of three categories, namely an act in excess of the public official's powers, an exercise of a power for an improper purpose, or a breach of a statutory duty (Odhavji, at para. 24). The minimum requirement of subjective awareness has been described as "subjective recklessness" or "conscious disregard" for the lawfulness of the conduct and the consequences to the plaintiff (Odhavji, at paras. 25 and 29; Powder Mountain Resorts Ltd. v. British Columbia (2001), 94 B.C.L.R. (3d) 14 (C.A.), at para. 7; Three Rivers District Council v. Bank of England (No. 3) (2000), [2003] 2 A.C. 1 (H.L.), at pp. 194-95, per Lord Steyn).

<https://decisions.scc-csc.ca/scc-csc/scc-csc/en/item/18855/index.do>

Employees refusing to be injected with the experimental (trial phase) mRNA have every legal right in law and precedence to refuse the experimental (trial phase) mRNA or any medical treatment.

1. Precedents regarding medical treatments which is what the experimental (trial phase) mRNA is: Carter v Canada (Attorney General), [2015] SCJ No 5

39: This right to "decide one's own fate" entitles adults to direct the course of their own medical care

40: it is this principle that underlies the concept of "informed consent" and is protected by s. 7's guarantee of liberty and security of the person (para. 100; see also R. v. Parker (2000), 49 O.R. (3d) 481 (C.A.)). As noted in Fleming v. Reid (1991), 4 O.R. (3d) 74 (C.A.), the right of medical self-determination is not vitiated by the fact that serious risks or consequences, including death, may flow from the patient's decision. It is this same principle that is at work in the cases dealing with the right to refuse consent to medical treatment, or to demand that treatment be withdrawn or discontinued: see, e.g., Ciarlariello v. Schacter, [1993] 2 S.C.R. 119; Malette v. Shulman (1990), 72 O.R. (2d) 417 (C.A.); and Nancy B. v. Hôtel-Dieu de Québec (1992), 86 D.L.R. (4th) 385 (Que. Sup. Ct.).

67: The law has long protected patient autonomy in medical decision-making. In A.C. v. Manitoba (Director of Child and Family Services), 2009 SCC 30, [2009] 2 S.C.R. 181, a majority of this Court, per Abella J. (the dissent not disagreeing on this point), endorsed the "tenacious relevance in our legal system of the principle that competent individuals are -- and should be -- free to make decisions about their bodily integrity"

Carter v Canada (Attorney General), [2015] 1 SCR 331 ss. 241(b) and 14 of the Criminal Code deprive these adults of their right to life, liberty and security of the person under s. 7 of the Charter. The right to life is engaged where the law or state action imposes death or an increased risk of death on a person, either directly or indirectly.

2. When it comes to our protected Human Rights and Charter Rights – Corporate Policies do not supersede personal rights.

Supremacy of the Code 7/26/2021 **2. The Code prevails over other laws | Ontario Human Rights Commission:** www.ohrc.on.ca/en/ii-introducing-ontario-human-rights-code/2-code-prevails-over-other-laws-2/3.

The Supreme Court of Canada has said that human rights legislation such as the Code is not like other laws.[4] It should not be treated the same as other pieces of provincial legislation because it is almost as important as the constitution, or “quasi-constitutional”. This means that you must comply with the Code before other laws unless there is a specific exception. The requirements in other legislation may be considered to be minimum standards that can be exceeded to comply with the Code.

Civil and Criminal Charges

Civil and criminal charges can and will be brought against those enforcing the corruptive measures under these acts as many in our government, public health and all employers could face civil and criminal contraventions under:

1. Murder, Manslaughter, and Infanticide R.S., 1985, c. C-46, s. 229, 2019, c. 25, s. 77
2. The Assisted Human Reproduction Act S.C. 2004, c. 2 – Protection of the Human Genome Principal. Definition: "genome" means the totality of the deoxyribonucleic acid sequence of a particular cell. The mRNA contradicts this law which renders it a "criminal" act.
3. The Genetic Non-Discrimination Act S.C. 2017, c. 3 - Vaccinated vs Unvaccinated, genetic testing by RT-PCR DNA collection and splitting. R.S., c. C-34, s. 244, 1974-75-76, c. 93, s. 21, 1980-81-82-83, c. 125, s. 19
4. The Intimidation (coercion) Criminal Code (R.S.C., 1985, c. C-46). Discrimination, employment condition, six weeks without pay, health passports required for travel, etc. All of which is cruel and unusual punishment.
5. The Privacy Act (R.S.C., 1985, c. P-21). No legal informed consent.
6. The Canadian Human Rights Act (R.S.C., 1985, c. H-6).
7. International Human Rights – non-derogation during COVID-19
8. Anti-terrorism Act S.C. 2001, c. 41
9. Canada Labour Code R.S.C. 1985, c. L-2
10. The Food and Drugs Act
11. The Canadian Human Rights Act (R.S.C., 1985, c. H-6).
12. International Human Rights – non-derogation during COVID-19

13. Accessible Canada Act
14. Public Service Act
15. Courts of Justice Act
16. Public Administration Act
17. An Act respecting First Nations, Inuit and Métis children, youth and families S.C. 2019, c. 24
18. Financial Administrations Act.
19. Air Canada Public Participation Act
20. other applicable laws and Criminal code apply.

The Treasury board, Privy Council, the Judiciary, all levels of federal, provincial, municipal governance and public health and the media are in breach of the most fundamental aspects of Constitutional law, civil law and human rights and freedoms, which make up your fiduciary responsibility to Canadians, the Indigenous peoples, and our employees, under the POGG (peace, order, and good governance).

Let us further remind you that, it is all the people in Canada that you work for. It is the Canadian people that you owe responsibility to, fulfilling our fiduciary duty to the Indigenous peoples of this country for us as Canadians under all provincial, national, and international laws.

The political and civil rights power belongs to the collective citizens. That power is *only on loan* to you for the period of your Governance, once elected, or placed into your positions by the elected governments, federally or provincially, every 4 years or until a new election is called.

All Canadians and the Indigenous people of Canada have the legal, lawful right to bring criminal charges against every single one of you, even if you claim to have legal immunity. Let me assure you that you do not. You are only administrators subject to the people.

Furthermore, the Canadian Government of the day is not the sole owner of the Crown of Canada, the Corporation, the treasury, and all that goes with it including the provinces. We, the Canadian people are its true owners, even if we are not specifically identified in the Crown Corporation of Canada, and in our Constitution, which P.E Trudeau, the Canadian Parliament, the Judiciary and the UK Parliaments knew about, but failed to transfer the power to the people on purpose in 1982, and this without even holding a referendum.

This fraud has ensured that the Minister of Justice, who is also the Attorney General, is in YOUR pocket since he is also a party member of the elected government thus helps you protect yourselves from prosecution, which is another representation of a democracy scam, and this MUST end.

Is it fair to the Canadian people that the Attorney General holds all the right to prosecute or not the governance corruption when he too, is participating in the level of corruption? Does this not denote conflict of interest? At present David Lametti has received by bailiff, two letters with proof of the SARS-CoV-2, COVID-19 fraud and yet has done nothing.

Why has David Lametti not responded by doing his job and launching a criminal investigation? Because he too is complicit in trying to remove our rights through the Genetic Non-Discrimination Act by failing to appeal to the supreme court which correlates to the launch of a pandemic that was never a pandemic, and he still has not appealed, even after the mRNA injections were launched based on false information given to the public.

If not for the interveners appealing to the Supreme court, we would not be protected from the RT-PCR test DNA collection effected against our will, which requires full informed consent and a detailed explanation as to what was and is being done with the test samples afterwards.

Selling of Canadian and Indigenous Peoples DNA without Consent

Is Canada selling everyone's DNA samples collected by RT-PCR such as done by the USA, whether results are negative or positive, without the citizens' consent, let alone knowledge for the installation of worldwide DNA biobanks such as the one in Quebec and those in our other provinces?

The authority that you claim above Canadians and the Indigenous peoples, is an ongoing coup d'état perpetrated under a de facto government in 1931, and again in 1982 through a false representative democracy system of governance; both times, leaving Canadians without collective rights to self determination and self governance or the right to participate in the full decision-making process to this day.

Both the UK and Canadian governments neglected to entrench into our Constitution, our rights to collective final decision-making authority over our governance, government, Judiciary, and our laws. We are the ones who own the prerogative and executive power, not the federal or provincial governments.

Furthermore, the Canadian Parliament does not hold parliamentary sovereignty; nor do the provincial legislatures have sovereignty over the people in their provinces or over the collective citizens across Canada, although you may think you do for the time being.

The Canadian federal government including the Prime Minister, and all Provincial Premiers can be subjected to legal procedures regarding their so called "advice" to claim approval of royal assent by the Governor General and Lieutenant Governors when in fact, it is an order given to the Governor General and Lieutenant Governors. This "advice" by the Premiers, and Prime Minister can be challenged in court.

What you have all done to the Canadian people since 1982 and now with SARS-CoV-2, COVID-19 is beyond comprehension as it does not fit the definition of the POGG expected from our public servants.

In the event that you have forgotten your place as officials in our governance, let me remind you as well, that when you mistreat your employees and enforce all other Canadian employers to subject them and their employees to coerced experimental vaccinations/ mRNA injections and

health passports as a requirement for Canadian employment, to travel or to unite even under bogus emergency measures, then you have forgotten who it is that you are mistreating.

Our federal, provincial and all other employees, even at the management levels are also the shareholders, co-owners of the Crown of Canada. Thinking that your policies or authority gives you the right to break the laws and take away our RIGHTS and our FREEDOM even during a pandemic or war is an abuse of power and is in fact, one of many criminal acts undertaken by all of you against us as your employers.

You have broken more provincial, national, and international laws and rights than we can count since at least 1982, and with the onslaught of measures driving our economy down and having us incurred deliberate massive debts through your calculated fabrication of the Health Care hierarchy above our rights without our consent, goes against our rights to refuse medical treatment and is criminal.

We have legal principals and laws in Canada that protect our genome from being tampered with to ensure the protection of the “human race” as found in nature. We also have laws against DNA collection without expressed written and informed consent.

We also have laws that protect the people against fraudulent activity such as the RT-PCR test not being able to identify an active viral infection over 25 CT (cycle thresholds). All provinces have used and are using 35-45 CT’s which primarily amplifies DNA fragments, through DNA splitting.

Nor were Canadians given an explanation in order to give true informed consent before being intimidated into accepting a test for employment, travel or non-symptomatic presumed infection, administered either by someone who may or may not have had medical training, or administered by self over a zoom, a test that scrapes the blood-brain barrier.

Enforcing the experimental mRNA Gene Therapy through coercion and fear by claiming to try to totally eradicate the SARS-COV-2 coronavirus COVID-19 disease by telling people the injections are safe and effective to use without truly knowing the long-term effects but promising to pay for funerals and vaccine injuries only under certain conditions for a virus for which we already had developed an immunity to and given that we have a survival rate of 99.97% is criminal malfeasance.

What makes the actions of the federal and provincial governments, Health Canada and the provincial public health departments, and the judiciary guilty of fraud, premeditated murder, and manslaughter?

You have participated in lying to the Canadians while fully knowing that the isolation of the SARS-CoV-2 coronavirus was not classifiable as a “High Consequence Infectious Disease (HCID)” as of March 2020.

As Canadians and the indigenous peoples, we require the opportunity to ask more questions and demand answers to all that you have done to us since at least 1982.

It is time that the indigenous peoples and Canadians know the truth and make informed decisions regarding our country and our future. Your abuse of power and breach of trust has gone beyond the limits for Canadians and the Indigenous peoples, and it is unacceptable.

Subjecting Canadians and the indigenous peoples under the claim of a pandemic through fear and the creation of panic by the healthcare agenda to coerce experimental mRNA gene therapy injections and health passports is an act of assault in more ways than one.

There are no requirements in the Canadian or provincial Health and Safety Regulations pertain to required vaccinations for personal health. Health and Safety Regulations required by employers pertain to the health and safety of work environments, which must never supersede the Charter rights.

Since we can prove that Covid 19 is not a threat to the population, the only threat to Canadians is the federal, provincial, municipal governments and public health officials who refuse to take our civil, legal and political rights into consideration preferring to trample on and erode them while propagating lies through the help of publicly funding all media and advertisement about the false narrative called highly infectious SARS-CoV-2 coronavirus requiring the administration of unknown and questionably safe and effective experimental mRNA Gene therapy injections.

It needs to end now!

I thank you for your time in advance. I look forward to your IMMEDIATELY adhering to this CEASE-and-DESIST NOTICE as lives are at stake by your hands, and if not, then further legal action will be taken.

Without Prejudice
